

Gun Cleaning Kit.

Designed with the needs of tactical shooters in mind, the M-Pro 7 tactical gun cleaning kit contains all the products and tools needed to clean and maintain weapons for optimal performance and reliability. *Panttheon Chemical's* tactical gun cleaning kit can be commercially transported worldwide due to its non-flammable and non-hazardous contents. Packaged in a high-quality locking case, the kit includes a large supply of M-Pro 7 gun cleaner, cleaner lubricant protectant and ammonia-free copper remover. These products reduce weapon maintenance time by up to 80 percent and exceed Mil-Spec cleaning system requirements. Also included in the M-Pro 7 kit is a variety of bore brushes, shotgun brush adapter, quality gun rod, .22-caliber loop, non-lint gun cloth, stack of cleaning patches and the M-Pro 7 Weapons Maintenance Guide.
